shlokdwivedi09@gmail.com

+91 9910280094

From directing my first Film in 6th standard, just because I looked like a guy who is good in computers, my journey in the Design and Tech started. Constantly working under high pressure and tight deadlines. Drifting off in my own space. Rendering my life constantly till I find a version, I call 'perfect'. Keyframing from good to the best.
